EXAMINER'S AMENDMENT

It is noted that, although the status identifiers indicate several of the claims are currently amended or new, all of the claims were pending at the time of final rejection and none of the claims are currently amended.

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In the specification

Amend the paragraph beginning at page 1, line 7 as follows:

The present application claims priority to U.S. Provisional Application No. 60/263,811, filed January 24, 2001. The present application is also a continuation-in-part application of U.S. Patent Application No. 09/600,319, filed July 13, 2000, now U.S. Patent No. 6,780,610, which is a U.S. national phase application of international application number PCT/US99/01038, filed January 15, 1999, which claims priority to U.S. Provisional Application No. 60/071,300, filed January 16, 1998. The invention is also related to international application PCT/US99/24972. Each of the aforementioned applications is explicitly incorporated herein by reference in its entirety and for all purposes.

Drawings

Art Unit: 1636

The drawings are objected to as failing to comply with 37 CFR 1.84(p)(5) because they do not include the following reference sign(s) mentioned in the description: Figure 15 references a panel D and Figure 25 references panels J-M, which panels do not appear in the drawings. Furthermore, Figure 25, panel F is alleged to show a bottom view of the brain but the photograph appearing in panel F does not appear to be a brain. Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Daniel M Sullivan whose telephone number is 571-272-0779. The examiner can normally be reached on Monday through Thursday 6:30-5:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Remy Yucel, Ph.D. can be reached on 571-272-0781. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
